

IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Currently Amended): An aqueous recording fluid comprising

- (a) at least one disperse dye, and
- (b) at least two wetting agents that are selected from (1) acetylene derivatives or (2) acetylene derivatives and alkoxyated or nonalkoxyated silicones.

Claim 2 (Currently Amended): The recording fluid according to claim 1 wherein at least two wetting agents are selected from ~~alkoxyated alcohols, alkoxyated or nonalkoxyated silicones, acetylene derivatives, alkylpolyglucosides, sugar ester alkoxyates, fluorosurfactants, anionic surfactants and cationic surfactants~~ (b1) alkoxyated silicones and (b) alkoxyated or nonalkoxyated acetylene derivatives.

Claim 3 (Currently Amended): The recording fluid according to claim 1 ~~or 2 that comprises~~ further comprising

- (c) at least one dispersant.

Claim 4 (Currently Amended): The recording fluid according to ~~at least one of claims 1 to 3~~ claim 1 that comprises two wetting agents ~~(b1) and (b2)~~ whose weight ratio is in the range from 1:20 to 20:1.

Claim 5 (Currently Amended): The recording fluid according to ~~at least one of claims 1 to 4 that comprises~~ claim 1 comprising up to 2% by weight of (b), based on the total weight of the recording fluid.

Claim 6 (Currently Amended): A process for producing a recording fluid according to claim 1 ~~to 5~~, which comprises mixing

- (a) at least one disperse dye,
 - (b) at least two wetting agents that are selected from (1) acetylene derivatives or (2) acetylene derivatives and alkoxyated or nonalkoxyated silicones,
 - (c) if appropriate at least one dispersant,
 - (d) water and
 - (e) if appropriate further assistants
- with each other in one or more steps.

Claim 7 (Currently Amended): ~~The use of~~ An ink for an ink jet process comprising a recording fluid according to claim 1 ~~to 5 or of a recording fluid produced according to claim 6 as an ink for the ink jet process.~~

Claim 8 (Currently Amended): A process for printing substrates by the ink jet process comprising using a recording fluid according to ~~at least one of claims 1 to 5 or a recording fluid produced according to claim~~ [[6]] 1.

Claim 9 (Original): The process according to claim 8 that is a transfer process.

Claim 10 (Currently Amended): The process according to claim 8 ~~or 9 when~~ wherein the substrates are textile substrates.

Claim 11 (Currently Amended): The process according to ~~any of claims 8 to 10 when~~ claim 8 wherein the substrates are substrates comprising polyester.

Docket No. 294533US
Preliminary Amendment

Claim 12 (Currently Amended): A printed substrate ~~obtainable~~ obtained by a process according to ~~any of claims~~ claim 8 to ~~11~~.
